1. SysInfotools NSF Split

2. Overview

Seeking for a tool to split Lotus Notes archive database in order to reduce NSF file size? Get a comprehensive SysInfoTools NSF Split™ tool here, the only solution available in the market!. Software is smartly designed to split a large sized Lotus Notes database into multiple NSF files in a very safe mode. The NSF Splitter tool offers you three different mode to break the Lotus Notes archive database i.e. you can split nsf file on the basis of **Date, Sender's Email Id and Size** of NSF file.

Key features of SysInfoTools NSF Split Tool are:

- Splits Lotus Notes **Mailbox, Contacts and Archive files** into multiple parts.
- Reduce Lotus Notes archive database **by size, by date and by sender's email ID**.
- Creation of **single** or **separate** NSF files as per date range features.
- **Easy to Use** and **Reliable** software to split Lotus Notes NSF files.
- Provides **independent saving** of new NSF database files at user-defined location.
- Compatible with **Windows OS 10 & IBM Notes 9** or its below version.

- **Free NSF Split** software allows user to break first 25 emails of selected folder.

3. Getting Started

- [Installation Procedure](#)(See 3.1)
- [Order And Activation](#)(See 4.)

Installation procedure

8. Technical Support

We provide 24/7 online support to solve customer's queries. We have highly skilled and expert support team, who makes use of modernized communication devices, thereby achieving maximum efficiency and an exceptional response time.

9. About SysInfoTools

Since several years, SysInfoTools has evolved as one of the trusted names in the field of Data Recovery of the different types of files. The main aim of our organization is to provide the best possible solution to our customers so that our customers can recover their data and relief them from the frustration of data loss. We aim at providing values to our customers and try to satisfy them in every possible way. Customer satisfaction is prime reward for our organization.

SysInfoTools provides a wide range of software for different types of corrupt files recovery and repair for corrupt zip files, MS BKF files, Open Office files (Base files, Impress files, Draw files, Calc files, Math files and Writer files), MS Office 2007 files (MS Word files, MS PowerPoint files and MS Excel files). SysInfoTools also provides software for corrupt PST files of MS Outlook and DBX files of Outlook Express. In addition, we have more recovery software which are available for crashed hard disk recovery and repair like software for FAT recovery and NTFS recovery. In future, we are going to expand our operations to offer more software for different types of corrupt files, Database, Email migration, Desktop utilities, Network management and many more which will help our customers to recover their valuable data.

The hard drives data recovery software provided by our organization ensures safe and accurate data recovery from the hard drive. It does not modify the existing content of the hard drive and make the fresh copy of the recovered data. Hard drives data recovery software are useful in situation when there is an accidental deletion of files, which are deleted due to virus attacks, disk formatting and software malfunctioning.
