SysInfoTools NSF to PST Converter

2. Overview

The **NSF to PST Converter** tool of SysInfoTools Software performs safe and quick conversion of NSF database of IBM Notes (formerly known as Lotus Notes) into Outlook PST format. It allows users to select single as well as multiple NSF database files at the same time. Via this converter tool, users can check the preview of their mailbox data of NSF database before performing the actual conversion .

Users can select the mailbox folders which they want to export to new PST file(s). The tool successfully exports each and every mailbox data which include email messages, contacts, calendar, to-do lists, notes, journals, etc. from NSF database. Users can define a new location on their system where they want to save the new PST files. Also, there is a unique date range option by which users can save their mailbox data. Users can select either a predefined date range or they can define it manually. Any technical or non-technical users can use this tool with ease.

Below are some outstanding features of NSF to PST Converter tool:

- Effective conversion of NSF database files into Outlook PST format;
- Batch conversion of multiple NSF files at the same time;
- Auto-search feature for searching the NSF database files in the system;
- Instant action without causing undesired alteration or modification;
- Exportation of the entire mailbox data from NSF database to MS Outlook;
- Preview of mailbox data is enabled before the actual conversion;
- Independent file saving with a unique date range feature;

- Smooth support for higher versions of Windows operating systems, i.e. Win 10

Important note:

- IBM Notes client should be installed on your local system;
- Microsoft Outlook email client should be installed on your local system;
- NSF database files should be in valid state, i.e. not corrupted.

3. Getting Started

- [Installation Procedure](#)
- [Order And Activation](#)

3.1 Installation procedure

To install **SysInfoTools NSF to PST Converter** tool, follow the steps given below:

1. Download demo version of the software setup (executable file or .exe) from the page linked below:

www.sysinfotools.com/recovery/nsf-to-pst-converter.php

9. About SysInfoTools

Since several years, SysInfoTools has evolved as one of the trusted names in the field of Data Recovery of the different types of files. The main aim of our organization is to provide the best possible solution to our customers so that our customers can recover their data and relief them from the frustration of data loss. We aim at providing values to our customers and try to satisfy them in every possible way. Customer satisfaction is prime reward for our organization.

SysInfoTools provides a wide range of software for different types of corrupt files recovery and repair for corrupt zip files, MS BKF files, Open Office files (Base files, Impress files, Draw files, Calc files, Math files and Writer files), MS Office 2007 files (MS Word files, MS PowerPoint files and MS Excel files). SysInfoTools also provides software for corrupt PST files of MS Outlook and DBX files of Outlook Express. In addition, we have more recovery software which are available for crashed hard disk recovery and repair like software for FAT recovery and NTFS recovery. In future, we are going to expand our operations to offer more software for different types of corrupt files, Database, Email migration, Desktop utilities, Network management and many more which will help our customers to recover their valuable data.

The hard drives data recovery software provided by our organization ensures safe and accurate data recovery from the hard drive. It does not modify the existing content of the hard drive and make the fresh copy of the recovered data. Hard drives data recovery software are useful in situation when there is an accidental deletion of files, which are deleted due to virus attacks, disk formatting and software malfunctioning.

You can buy our products directly from SysInfoTools website. We provide software both by online mode and via shipment. The shipment is made within the committed time frame and at reasonable rates. We provide 24x7 customer support, our dedicated support team assists our customer by providing them information before and after the purchase of our product. We also provide the live working videos and free demo of our products at our SysInfoTools site so that the customer can see and analyze the software before purchasing it.
